## SeaBlazeX2 with Polished Housing

Offering the best of both worlds - high performance with a highly polished finish the market-leading SeaBlazeX2 once again stands apart from the competition. A proprietary plating process has allowed us to retain the legendary solid naval bronze construction while adding a brilliant high luster finish. Developed to meet the demands of high performance freshwater boats but well suited for saltwater applications. Where style and performance count, SeaBlazeX2 shines brighter!

Solid naval bronze housing with polished finish.

Available in dual-color white/blue and full-color RGBW spectrum.
