

Manual reefing systems

CRUISING MODELS

- > Large range of 10 models for boats from 5 to 26 m.
 - > Round and silver anodised profile.
 - > Several fitting possibilities: adjustment plates, long link plates, turnbuckle cylinder, below the deck fitting, stainless steel locking devices
 - > Additional option: opening pre-feeder, stainless steel locking devices
 - > 10 year world wide limited warranty.
 - > **New:** the C290, C320, C350, C420 and C520 models can hold an increased forestay diameter.
- For example: for an 8mm forestay, you can choose a C320 instead of a C350. If using a swageless eye, you must take both the maximum sail surface area and the drum capacity into consideration.

How to choose my furling system?

To correctly select your own furling system, refer to the following steps:

- Step 1: Define your sailing program: cruising or racing-cruising.
- Step 2: Measure accurately the diameter of the forestay (see table below).
- Step 3: Choose one of the fitting systems described on page 14.
